

ATELIER ALAIN ELLOUZ

"With this showroom, I wanted to create a singular venue, a space where art form blends boldness and harmony. Here, lighting fixtures become artwork, celebrating the natural beauty of alabaster and rock crystal." - Alain Ellouz

After Paris and London, Atelier Alain Ellouz inaugurates its New York showroom, in the heart of Soho. Atelier Alain Ellouz is highly acclaimed by major designers for its high-quality, stone workmanship. The workshop's alabaster and rock crystal creations embody nature's beauty and the extraordinary richness of the two stones.

The workshop is our own design, created to reflect the essence of the finest French luxury. Located in Soho on Spring Street, the 220 m2 second-story

showroom takes you through different spaces, each of them dedicated to our collection of lighting fixtures. Moving through each space lets you rediscover the beauty of our creations set against a vibrant decor.

For this project, we've collaborated with major French designers and artists to bring together, in a perfect balance, our lighting fixtures and their art pieces. The New York showroom officially opened its doors on the 21st of June 2018.

Our showroom's special guests

PHILIPPE HUREL

"Philippe Hurel is unarguably one of the masters of French contemporary design." - Alain Ellouz

This is hardly Alain Ellouz's first project with the prestigious, fine furniture designer, Philippe Hurel. Over an 8-year period, they achieved many impressive projects for first-class brand names such as Chaumet, Rolls Royce or the LVMH group. Through his high-quality craftsmanship, Philippe Hurel designs furniture using the finest materials, which blend perfectly with alabaster and rock crystal - Atelier Alain Ellouz signature materials.

LA MANUFACTURE DES TAPIS DE BOURGOGNE

"As an enthusiast of paintings and decorative arts, I was naturally struck by the exquisite work of La Manufacture des Tapis de Bourgogne." - Alain Ellouz

Alain Ellouz decided to feature several carpets from La Manufacture des Tapis de Bourgogne to enrich the shades that define the showroom's elegant sobriety.

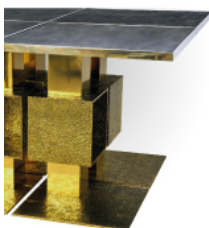

He chose carpets designed by the prominent designers Pierre Yovanovitch, Damien Langlois-Meurinne and Bismut & Bismut. Through their resolutely contemporary style, these designers' different pieces highlight the meticulous craftsmanship on display. All carpets are entirely hand made in France.

LA FORGE DE STYLE

"Many people work metal, but few know how to honor it with as much perfection and precision as La Forge de Style." - Alain Ellouz

Alain Ellouz has collaborated with Forge de Style on several different occasions, notably for a major project consisting of a 6-meter-long alabaster table weighing more than 1,500 lbs. The table was designed by Philip Stark for a New York mansion. As a result of successful past collaborations, Alain Ellouz naturally turned to Forge de Style to create the legs for the meeting room table especially designed for the New York showroom. Rigorous, high-quality, technical expertise solidifies the union between the two craftsmen.

DAVID CHAMBARD

"David Chambard's paintings are vibrant and uninhibited. His work takes us on a striking voyage through his unrestrained interpretation of nature's elements." - Alain Ellouz

As an art collector, Alain Ellouz is proud to feature several of David Chambard's paintings; one of his favorite contemporary artists. David Chambard's art, like Atelier Alain Ellouz creations, celebrates nature and its elements. His pieces highlight the showroom walls' varying shades of gray.
